

Suno Prompt 1 Response:

Created high beat, energetic songs, about sunshine and rainbows. Clearly followed instructions

Suno Prompt 2 Response:

Created a calm and simple song, that clearly followed the instructions given. Has that “easy-to-sing” to vibe

Suno Prompt 3 Response:

Once again followed the prompt, however all three songs ended up sounding the exact same. The sadder song just had a slower beat

The screenshot shows the SUNO application interface. On the left, there's a sidebar with the user's profile picture (vgonur2), a navigation menu with options like Home, Create, Chat (Beta), Studio, Library, Search, Hooks (+Create), and Notifications. A 'Go Pro' button is also present. The main area is titled 'Workspaces > My Workspace'. It displays a search bar, filters (Filters (3)), and sorting options (Newest). A song preview for 'Ghost In My Hoodie' by Vishruth Gonur is shown, along with other song cards for 'Empty Room Echo'. At the bottom, a player bar shows the song 'Ghost In My Hoodie' by Vishruth Gonur, currently at 0:29 of a 1:00 duration.
