Prompt 1

Generate a 10 line beginner-friendly song plan about "sunsets and happy people."

Requirements:

- Use clearly labeled sections: Intro, Verse, Chorus, Verse 2, Bridge, Outro.

- Keep language simple and catchy.

- Provide:

    - BPM (with explanation)

    - Chord progression (at least 4 chords)

    - Description of drum pattern

    - Description of bassline role

- Keep everything intro-to-mid level complexity.

- Avoid advanced music theory terminology.

Prompt 2

Create a 10 line beat plan for a nostalgic but uplifting song at exactly 92 BPM.

Constraints:

- Use only these instruments: kick, snare/clap, hi-hat, bass, simple melody.

- Provide an 8-bar chord progression (one chord per bar).

- Describe the drum pattern per bar.

- The chorus must contain exactly 8 lines, and each line must be 6–8 syllables.

- Keep explanations simple and beginner-friendly.

Do not exceed these constraints.

Prompt 3:

Based on your previous output:

- Keep the same BPM.

- Make the song feel more energetic without adding new instruments.

- Modify only the drum pattern and bassline.

- Explain exactly what changed and why.

Then output:

- An 8-bar table showing:
  Bar | Chord | Kick Pattern | Snare Pattern | Hi-Hat Pattern

Format the table clearly so it could be used to generate a MIDI file.

Remember only 10 lines
